PHENOM

Finished to exacting specifications and machine polished with high velocity micro particulates, the engineering behind PHENOM is only outdone by one thing... its artistic style. Micro-engineered lenslocks add both flexibility and flair. An exercise in creative contrast.

SPECIFICATIONS

eye size:
54 mm

temple length:
132 mm

bridge width:
19 mm

lens height:
28 mm

weight:
15 grams
(without packaging)

KEY FEATURES

- Soft thermoplastic rubber tipped temples grip lightly to ensure proper location of the optics without slippage;
- Aluminum-magnesium frame construction generates proper strength and optical stability through a hybrid lightweight metal alloy;
- Hidden spring hinges flex to ergonomcally fit a wide variety of head and face shapes;
- Lightweight construction and proper weight balance guarantee long wearing comfort without pressure points or fatigue;
- Micro-engineered lenslocks securely retain lenses without undue stress or distortion of the optics;
- Adjustable floating nose pads articulate in 3 dimensions to properly fit and comfortably secure eyewear in place.
